

AI Implementation: "Café Fausse" Website Design

Project: Full Site (Frontend & Backend) Developer: Larry Sciancalepore Timeline: October 2026

AI Tooling

Task	Tool Used	Implementation Detail	Outcome
Landing Page		Boards with descriptions/Prices	UI
	Figma, Claude 4.5 Haiku		
	Gemma 431b		
Menu	DALL-E 3 GitHub Copilot	Show menu items	Showing
Reservation System	ChatGPT-4o	Integrated bookings.	API
SEO Copy	Jasper	"About Us" copy for search.	SEO

Detailed Workflow

Visuals to Code (UI/UX) Used provided images. Gemma 431b with the prompt: *"Converted the visual style of images into a responsive React component."*

Menu GitHub Copilot to generate the JSON structure for the items.

Content Listed menu items

Quality Control

- **Visual Audit:** All AI layouts were manually adjusted to ensure they are accessible and mobile-responsive.
- **Fact Check:** All AI menu descriptions were reviewed by the Executive Chef to ensure ingredient accuracy.
- **Link Testing:** All API endpoints generated for the reservation system were tested in a sandbox environment
